1 Introduction

This template provides authors with most of the formatting specifications needed for preparing their contribution. We ask that all authors follow these guidelines and format their contribution to look like this document. You can use this template and replace the content with your own material. The document size is 7.44"x 9.69". The Contribution must be written in English. Papers written in French or Romanian might be accepted in some special cases, but their abstract should be written in English.

Please submit your contribution electronically in MS Word and camera-ready version (PDF) to the Congress Chair.

2 General Points

2.1 General

Do not write more than 6 pages. The one-page abstracts will be included in the Conference Booklet, distributed in hard copy to attendees. The full length papers will be, after revisions suggested by the peer review, published in a digital proceedings, online. Selected papers will be invited for journal publication

Please submit your contribution in its final format, as the editors will not revise content or formatting in any way. It is important that all fonts, tables and images are embedded in the resulting PDF.

2.2 Margins

This template may be used to format your paper and style the text. All margins, column widths, line spaces, and typefaces are prescribed. Please do not alter them. Use 10 point Times New Roman for

your text. Footnotes should be avoided. Page margins should be set at:

Top: 0.75"

Bottom: 0.75"

Left: 0.75"

Right: 0.75"

2.3 Page Numbering

Do not number the pages.

3 Styling

Complete content and organizational editing before formatting. Please be careful when proofreading spelling and grammar.

3.1 Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text. Do not use abbreviations in the title or headings.

3.2 Equations

Punctuate equations with commas or periods when they are part of a sentence, as in

$$\alpha + \beta = \chi. \quad (1)$$

The equation is centered using a tab stop. Be sure that the symbols in your equation have been defined before or immediately following the equation. Please use "(1)", not "Eq. (1)" or "equation (1)", except at the beginning of a sentence: "Equation (1) is ..."

3.3 Headings

Headings are organizational devices that guide the reader through your paper. Use 10 point Times New Roman boldface for your headings.

3.4 Figures and Tables

Figures or photographs must be incorporated electronically into the text. Please do not attach figures or photographs as separate files.

Figure 1. Example of a figure caption. Use 9 point Times New Roman.

Place figures, images, and tables in text as close to the reference as possible. Large figures and tables may extend across both columns and should be placed near the top or bottom of the page. Figure captions should be below the figures. Table headings should be placed above the tables. Captions and headings should be 9 point Times New Roman and be numbered. Insert figures, images, and tables after they are cited in the text. Refer with “Figure 1”, even at the beginning of a sentence. Please center the figures.

The recommended table layout is indicated below. Please use words rather than symbols or abbreviations on all table headings. Avoid frames and cells.

Table 1. Example of a table caption. Use 9 point Times New Roman for table labels.

Experiment No.	Result X	Result Y
1	X_1	Y_1
2	X_2	Y_2
3	X_3	Y_3
